# SRGC-AGS

## Joint late show Hexham 2025

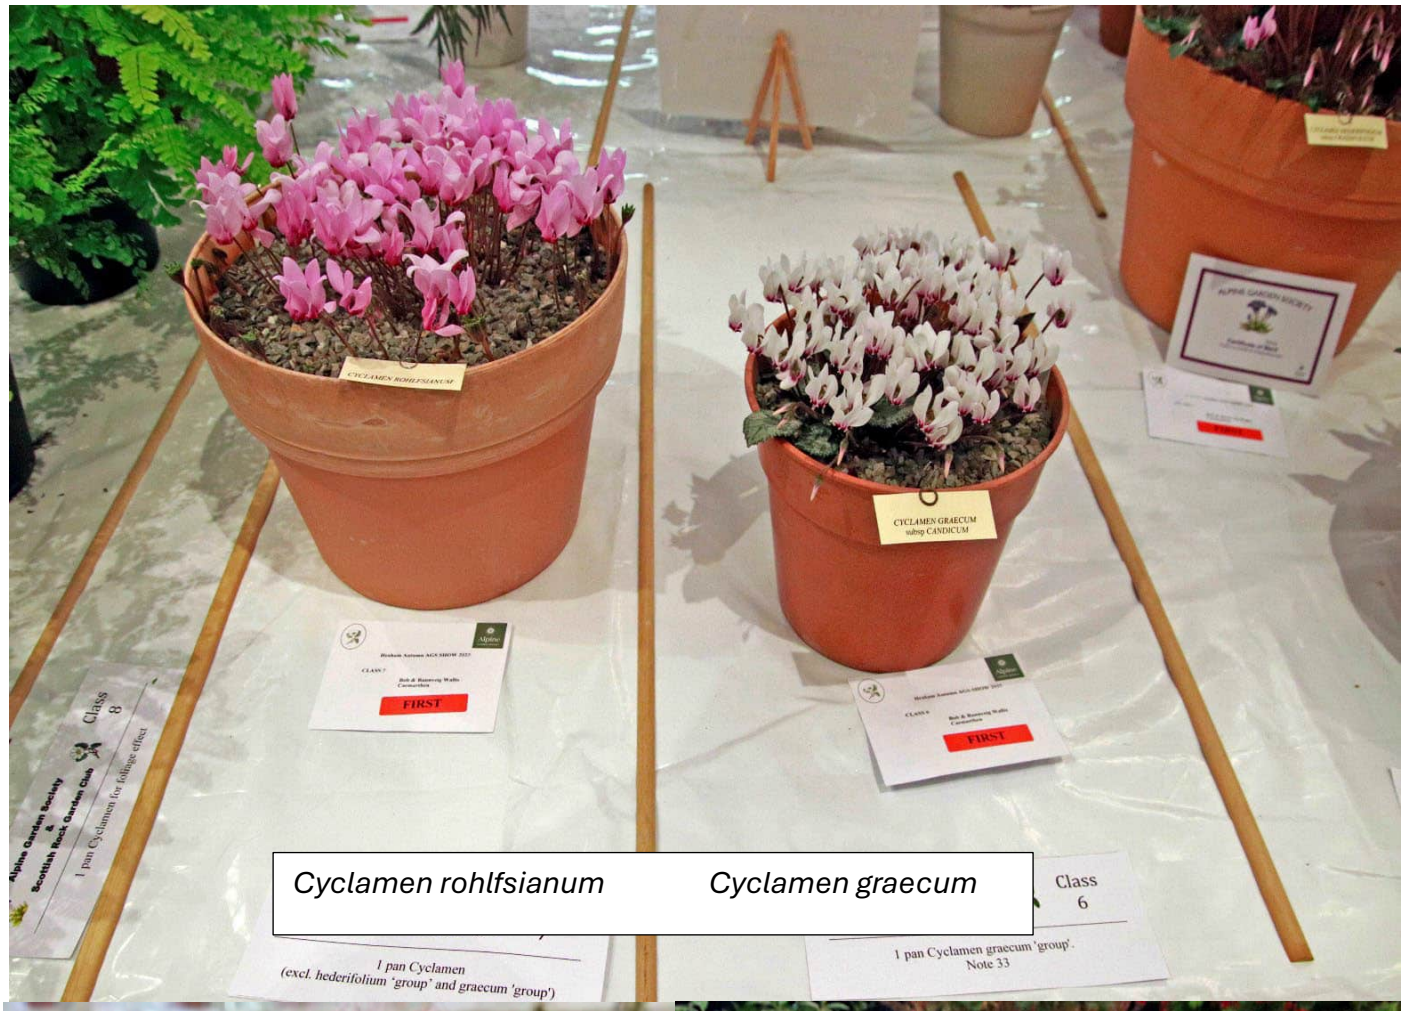

Large pots of cyclamen are a feature of the autumn shows. Bob & Rannveig Wallis have many, notably the fine pot of *C. maritimum* which took the Forrest Medal as this was a year when Scottish rules applied. Two other good cyclamen accompanied the Forrest plant in a three-pan class, all from Asia. Adjacent their even larger pot of *C. hederifolium crassifolium* received a certificate of merit. Well worth making the long journey from Wales.

*Cyclamen rohlfsianum* *Cyclamen graecum*

*Nerine* *Crocus*

Some less usual bulbous plants make these shows informative for the visiting public.

Dwarf shrubs.

Not so many gentians this year with the McNaughton cultivar 'The Caley' the showiest.

Grey leaves and autumn foliage.

More foliage with variegations.

Dwarf ferns.

Seasonal vase beside the class for three of one genus unusual ths year as there was a tie for first place between Team Wallis ' cyclamen and Stan da Prato's autumn saxes.

Hardy succulents.

Bob & Rannveig's AGS medal winning small six pan entry.

More winning plants. The David Boyd award for Michael Wilson's *Cyclamen mirabile*, the Patricia Furness vase for Ian Instone's *Lachenalia longituba*, the Ewesley salver for Bob & Ranveig Wallis' *Cyclamen graecum candicum* and the Millenium foliage trophy for Michael Wilson's *Artemesia schmidtiana* 'Nana.'

Ralph Heywood memorial trophy for best dwarf shrub to Alan Newton's Myrteola nummularia.

Notes on cultivating a Raoulia.

Gesneriads.

More bulbs.
