

# The Scottish Rock Garden Club

## Forrest Medal - Glasgow 2025

### Cypripedium x 'Ursel'

### Shown by Cyril Lafong

Cyril triumphed again with his fabulous multi-stemmed plant of the exotic orchid *Cypripedium* 'Ursel', a hybrid of *C. fasciolatum* and *C. henryi*. It is one of the best terrestrial orchids for cultivation in Scotland. Its beauty is clear to see. I particularly like the detail of blood red spots ringing the mouths of its pouches. Perfectly grown and perfectly presented it was the outstanding plant in an outstanding show

**Cyril's  
67th  
Forrest  
medal  
or is it 68?**
