Christmas at the R.B.G. Edinburgh
The Scottish Rock Garden Club

Appreciate the trees

Not all trees are real!

Admire the intricacy of the branches

Baby, it's cold outside!

Inverleith house

A few leaves left

A photograph of a tree at night, illuminated from behind. The tree's branches and leaves are silhouetted against a dark background, with a bright, glowing light source behind it. The light creates a strong back-lit effect, making the tree appear to glow. The overall scene is dark, with the tree being the central focus.

Back-lit

Front-lit

Why is a tree like an elephant?

They both have trunks!

Electric drops

U.V.?

Not for me!

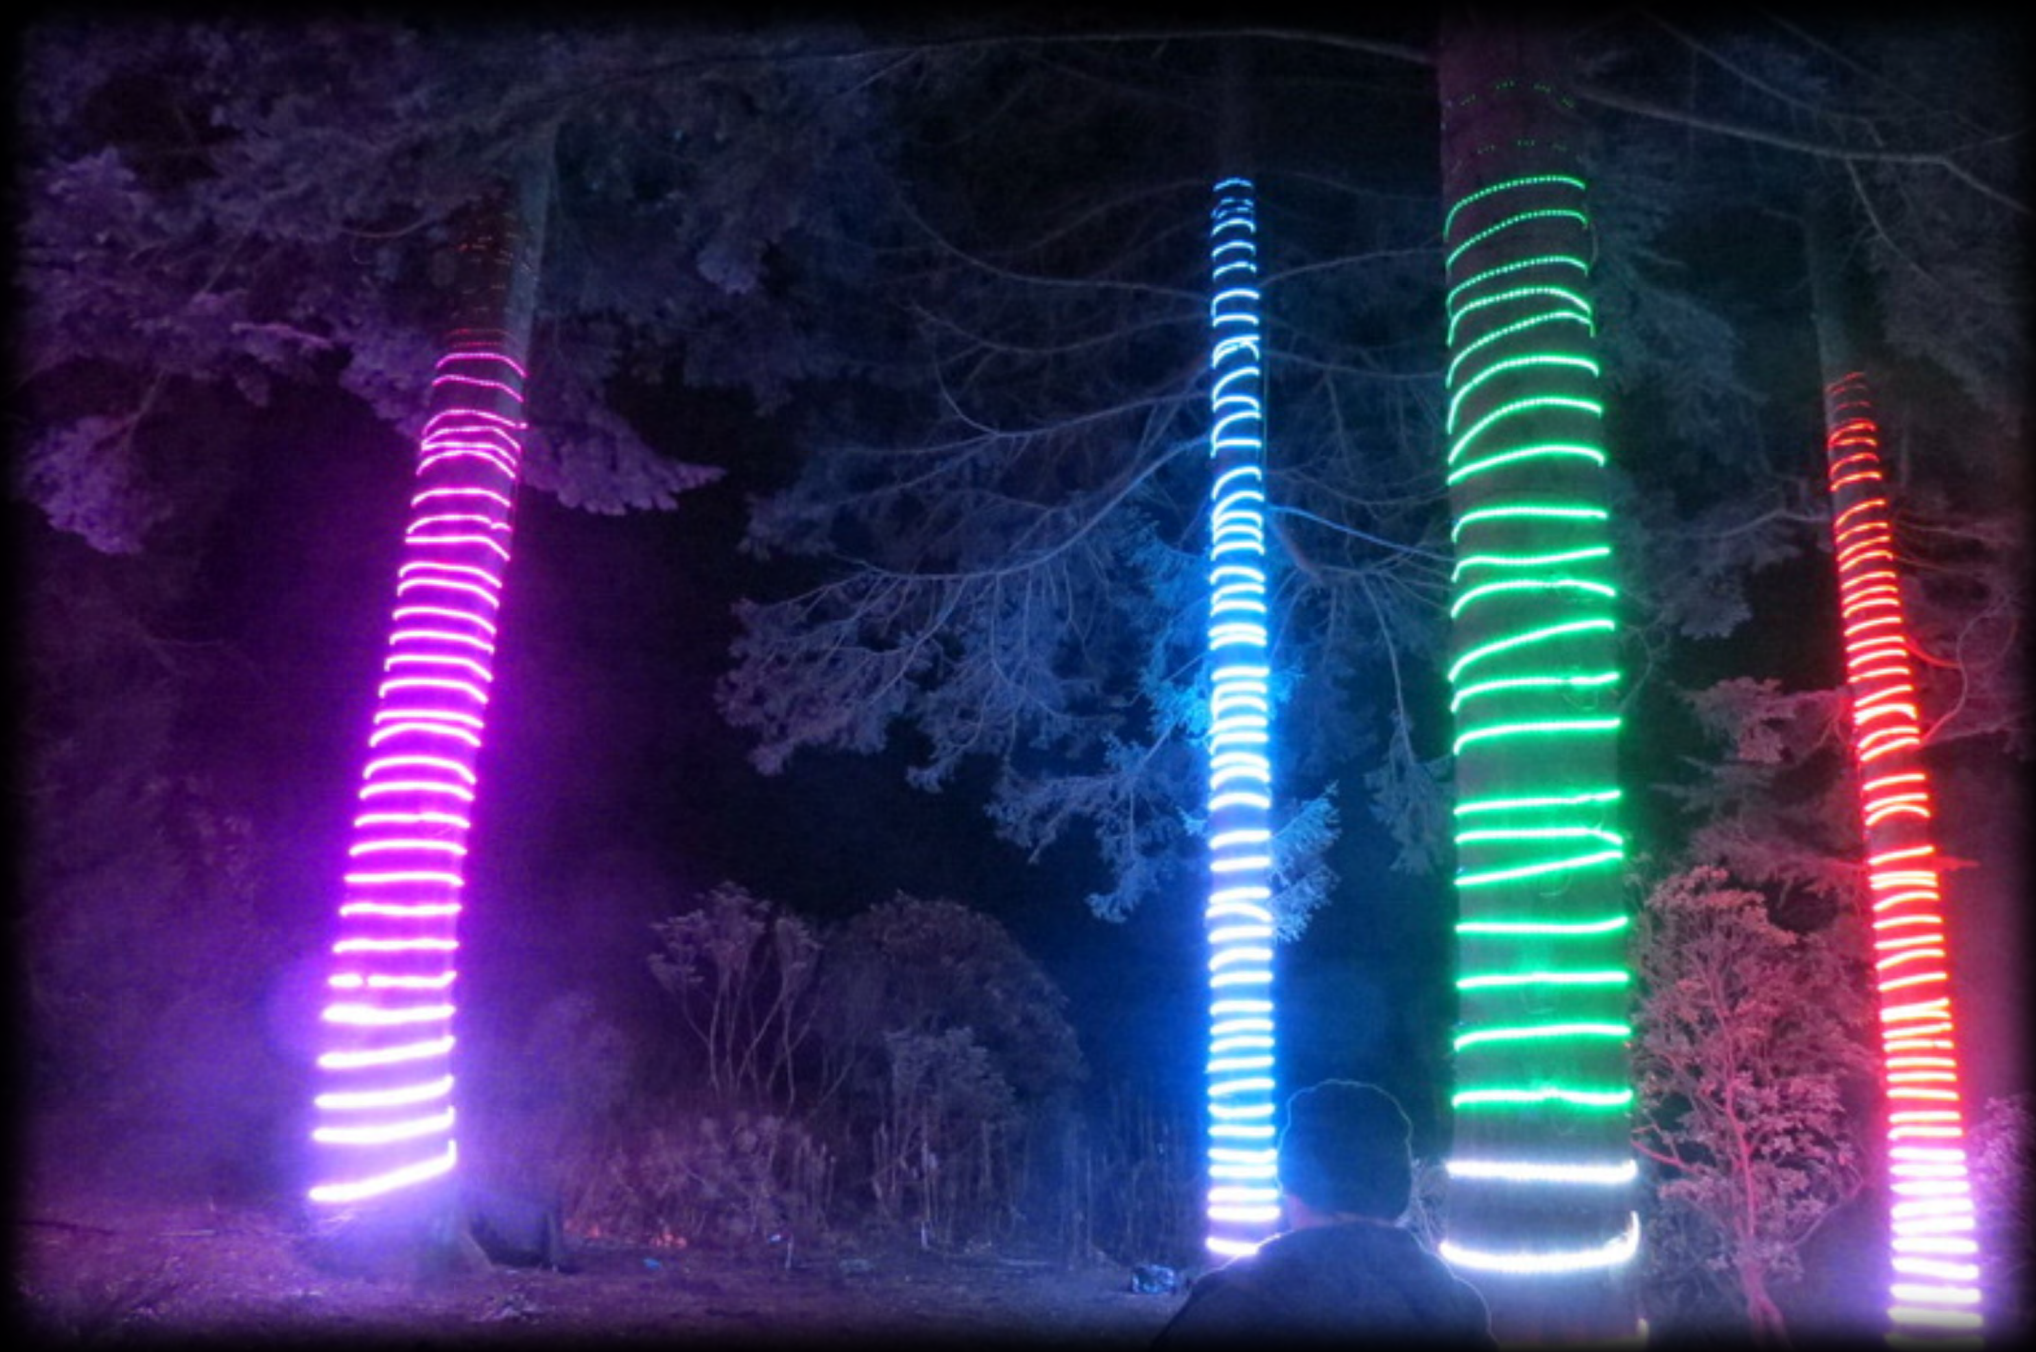

Like banks, some trees have fewer branches

A photograph of four pine trees in a dark forest at night. Each tree is wrapped in a different color of LED lights: purple, blue, orange, and green. The lights are arranged in a wavy pattern around the trunks. The background is dark with some faint light from other trees.

Musical pines

You had to be there!

the marshmallowist.
handcrafted from fluff to cut.

Fire for the marshmallows

Eatin' not weepin'

Phoenix nights

Firelight & moonlight

Extraordinary!

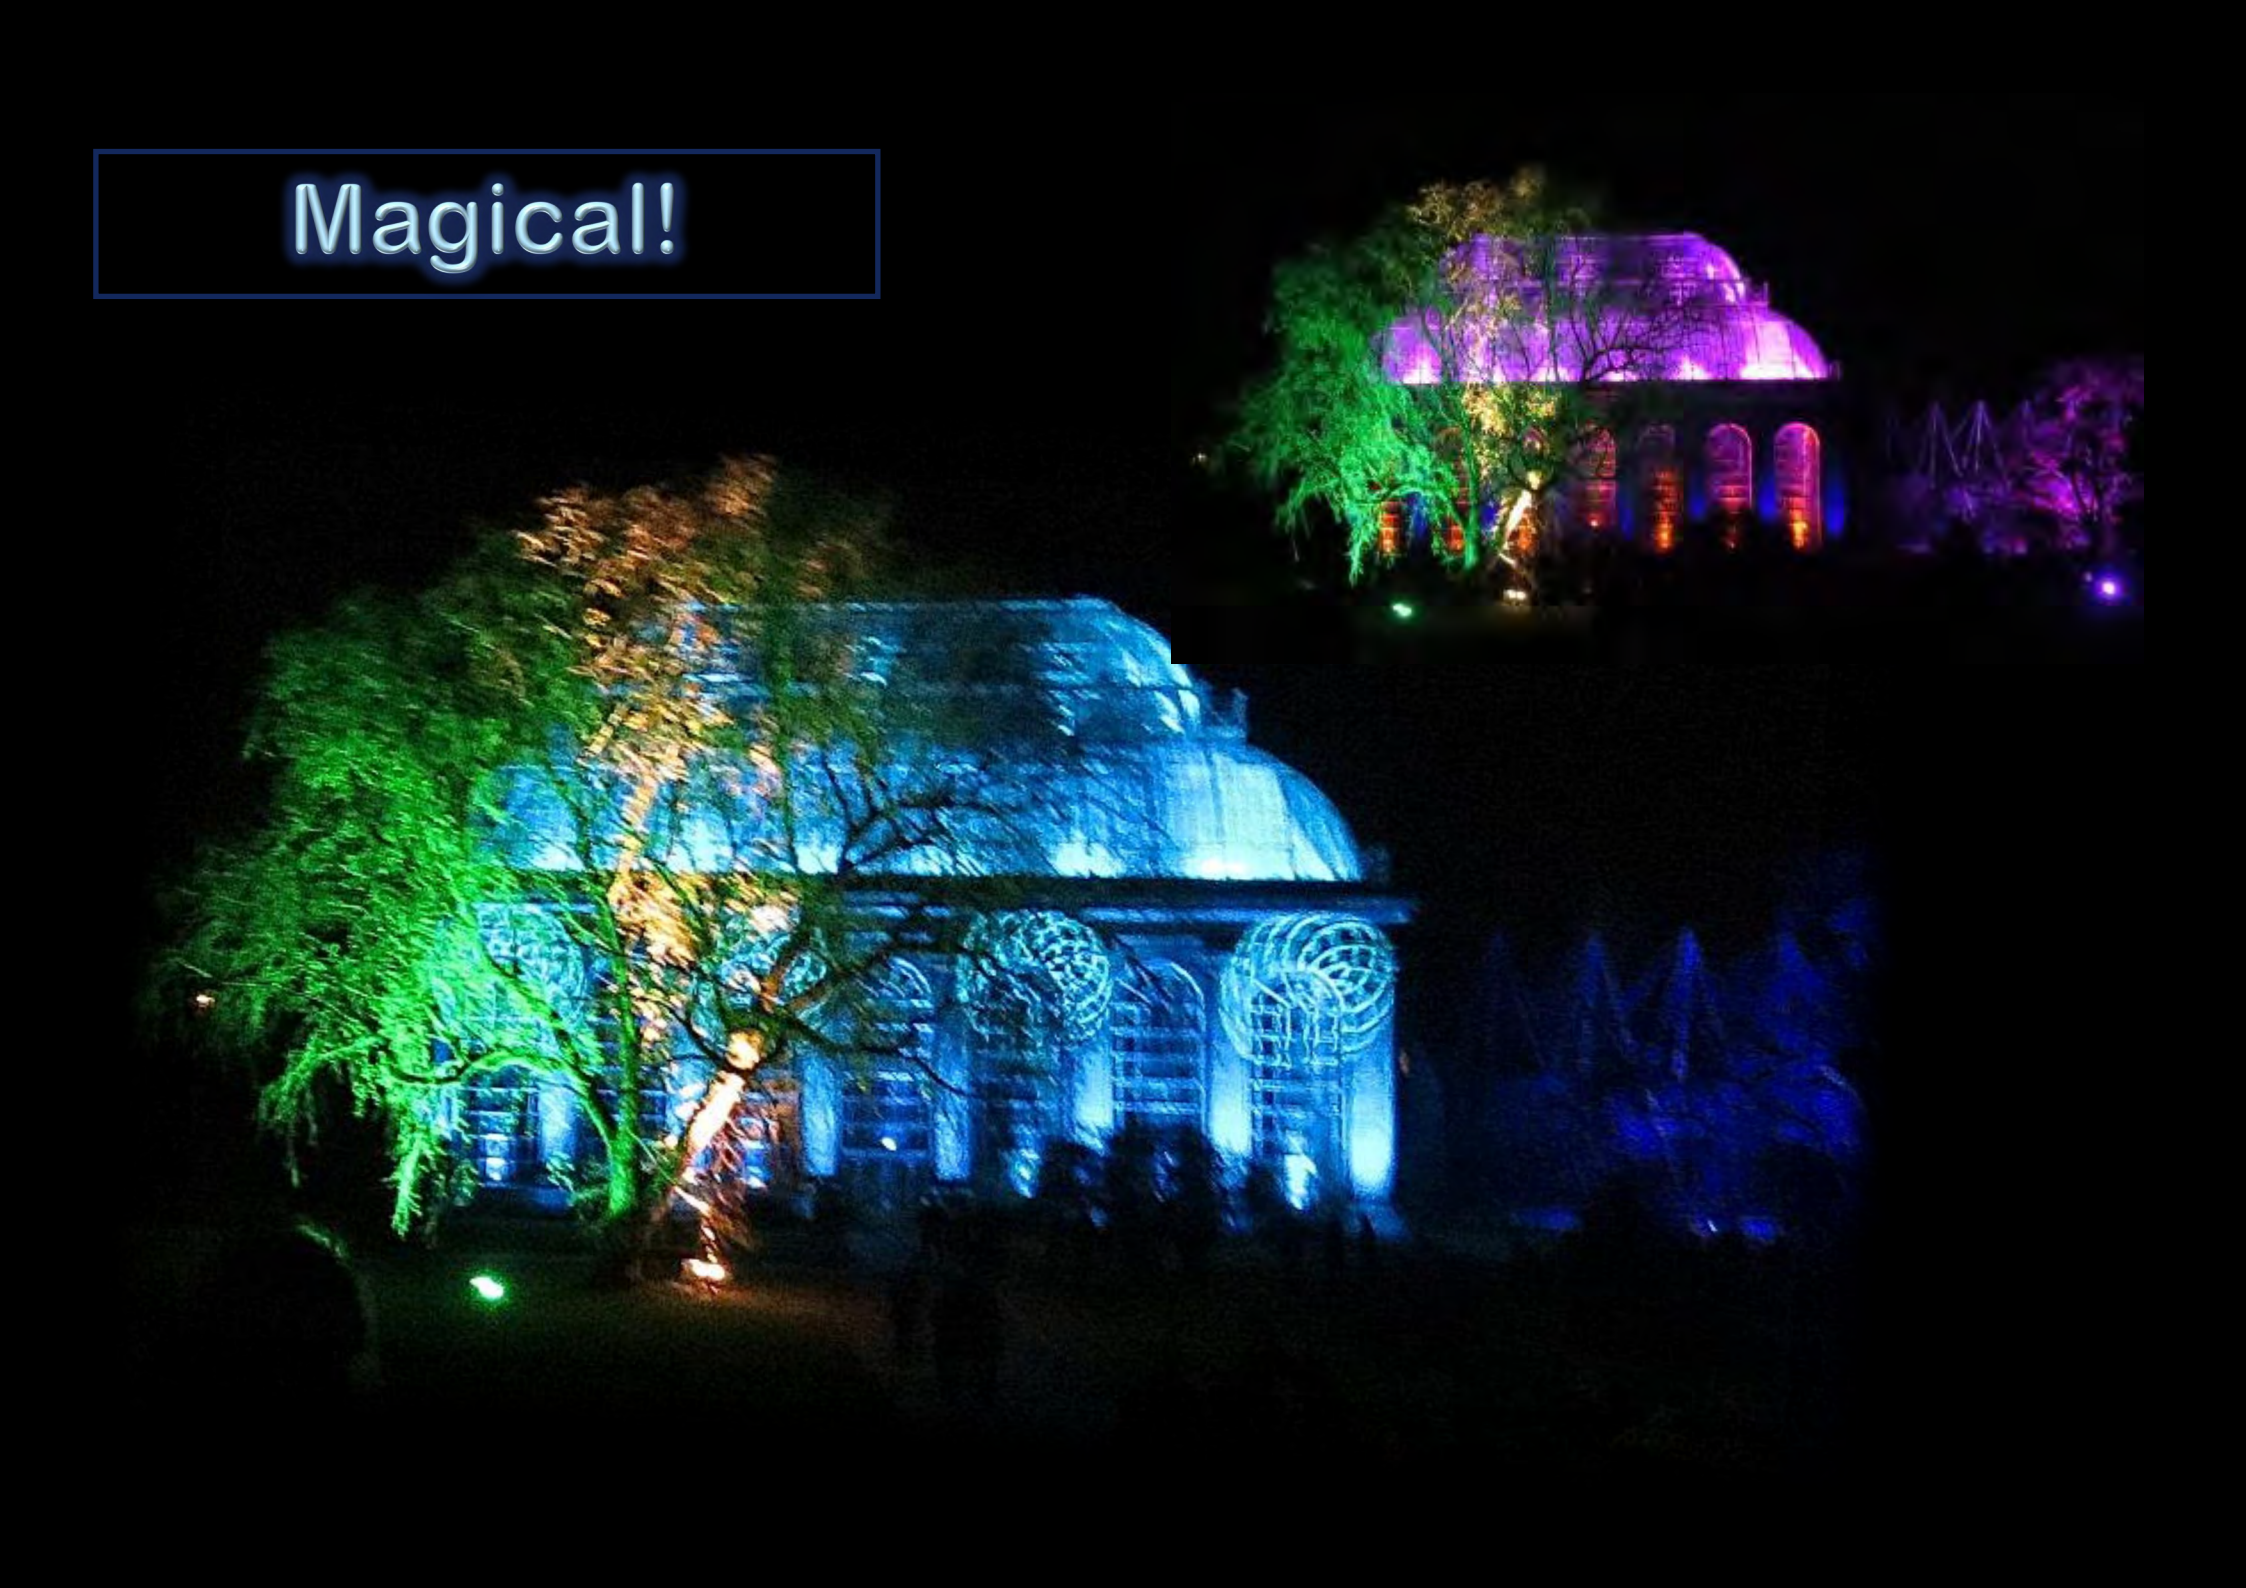

Cross my palm house with any colour you like

Magical!

Who lives in this wee house?

Merry Christmas!
